

Course: Tonal Assessment

Course Description:

Tonal Assessment - a review of the spine from its housing and attachments to the impact of posture on the spinal tissues. This course will give you new insights and ways to interpret and look at postural faults, head forward posture and compensations from a tonal perspective.

Course Format: Audio

Cost: \$1

Credits: 1.5

Instructor: Dr. Sony Canteenwala

Bio:

Dr. Sony Canteenwala received his Bachelor of Science from the University of Manitoba in 1995. In 1999 he graduated with a Doctor of Chiropractic degree from Atlanta, Georgia. In 2003 Dr. Canteenwala created a college level course curriculum on stress management and spinal health which has since been implemented in Manitoba. Dr. Canteenwala is also a post graduate instructor of technique and analysis for Life University in Atlanta, Georgia. He is currently the Director of the Holder Research Institute Canada teaching the Torque Release Technique®. He is also a board member of the American College of Addictionology and Compulsive Disorders.

Dr. Sony Canteenwala is a member of the Manitoba Chiropractic Association, the Canadian Chiropractic Association, the International Chiropractic Association (ICA). In addition Dr. Canteenwala holds the position of Representative Assemblyman for Manitoba in the International Chiropractors Association and was awarded their International Leadership Award in 2004 in Washington D.C. In 2005 he was inducted as a Distinguished fellow of the ICA, and in 2006 received their Representative Assemblyman of the Year Award (Arlington, Virginia).

Dr. Canteenwala is currently in private practice at the Canteenwala Chiropractic Centre in Winnipeg, Canada.
